MESSAGE FROM REGATTA PATRON, HRH THE RAJA MUDA OF SELANGOR

Welcome Aboard, Fleets and Friends!

As a fellow sailor who shares your deep love for the sea, it is an absolute joy to welcome you to the 36th Raja Muda Selangor International Regatta. There is a unique bond that unites everyone who steps onto a deck and I am happy to welcome old friends, regular crew members and new sailors to our regatta.

This year's nine-day journey is packed with an incredible, action-filled schedule. You will be testing your tactical wits against the infamous wind shifts, complex tides, and changeable weather of the Straits of Malacca. Then, we mix things up with intense, fast-paced harbour and inshore racing in Penang and Langkawi.

But as we all know, a true regatta is just as much about what happens off the water. Get ready for regatta dinners, plenty of local cultural showcases, and, of course, the legendary Rickshaw Race in Penang—always a brilliant highlight for crew bonding!

Whether you are pushing an elite IRC racing machine to its absolute limits or navigating a beautiful classic cruiser, we are all bound by the same spirit of adventure.

I would also like to highlight a different sailing achievement. The recent circumnavigation by RSYC member Fabian Fernandez; a story told in his new book I Did It Anyway. It's a story of uncertainty, adversity and resilience that should inspire both sailors and non-sailors alike.

So, to all participants, let's sail hard, look out for one another, and enjoy every moment of this incredible journey up the coast of Malaysia.

HIS HIGHNESS TENGKU AMIR SHAH IBNI SULTAN SHARAFUDDIN IDRIS SHAH ALHAJ

D.K., S.P.M.S., S.S.I.S., S.P.M.K

Royal Patron, Raja Muda Selangor International Regatta

MESSAGE FROM THE MAIN SPONSOR

YANG AMAT BERHORMAT DATO' SERI AMIRUDIN BIN SHARI.
CHIEF MINISTER OF SELANGOR

Selangor continues to strengthen its position as Malaysia's economic powerhouse and principal gateway, contributing more than a quarter of the nation's economy while enhancing its competitiveness on the regional and global stage.

As we embark on Visit Selangor Year 2026 (VSY2026), we are setting our sights on welcoming 9 million visitors, reflecting our confidence in the state's tourism potential, strong connectivity and diverse tourism offerings. Through strategic investments and industry collaboration, tourism remains a key driver of economic growth, creating opportunities for businesses, communities and the wider visitor economy.

The 36th Raja Muda Selangor International Regatta 2026 exemplifies Selangor's commitment to hosting world-class events with lasting tourism and economic impact. As one of Asia's premier sailing competitions, the Regatta attracts participants and visitors from around the world, generating international exposure while showcasing Selangor's maritime heritage, hospitality and tourism assets.

This year's edition is particularly meaningful as Tourism Selangor celebrates its Silver Jubilee, marking 25 years of dedication in advancing the state's tourism industry. Over the years, Tourism Selangor has played a pivotal role in elevating the state's profile, strengthening strategic partnerships and enhancing Selangor's appeal in both domestic and international markets.

As we look towards the future, we remain committed to fostering sustainable growth, innovation and global connectivity. Flagship events such as the Raja Muda Selangor International Regatta continue to reinforce Selangor's standing as a dynamic, progressive and internationally recognised destination.

I extend my warmest welcome to all participants, sponsors, partners and visitors. May the 36th Raja Muda Selangor International Regatta 2026 continue to strengthen international friendships, inspire excellence and showcase the very best of Selangor to the world.

Together, let us chart new horizons and further elevate Selangor's position as a leading economic and tourism hub in Asia.

MESSAGE FROM THE THE EXCO

YB DATO' NG SUEE LIM
SELANGOR EXCO FOR LOCAL GOVERNMENT AND TOURISM

Selangor continues to strengthen its position as Malaysia's leading tourism state, offering a diverse range of experiences that reflect the richness of our culture, heritage, nature and modern lifestyle. From vibrant urban attractions and world-class sporting events to hidden gems waiting to be discovered, Selangor remains a destination where every journey unveils something memorable.

The 36th Raja Muda Selangor International Regatta 2026 once again showcases Selangor's standing as a premier destination for international sporting tourism. As one of Asia's most prestigious sailing events, the Regatta attracts participants and spectators from around the world, highlighting not only our maritime heritage but also our capability to host events of global significance. Beyond the competition itself, the Regatta provides an opportunity to experience the unique attractions, hospitality and culture that define Selangor.

This year is also particularly meaningful as Tourism Selangor celebrates its Silver Jubilee, marking 25 years of shaping and promoting Selangor as a preferred tourism destination. Over the years, strategic initiatives and strong partnerships have enabled Selangor to evolve into a dynamic tourism hub, welcoming visitors through an extensive range of leisure, adventure, gastronomic, cultural and nature-based experiences.

Guided by the spirit of **"Selangor Kan Ada, Tak Perlu Jauh"**, we continue to encourage travellers to rediscover the wealth of experiences available right here in Selangor. Whether it is exploring our pristine beaches and mangroves, enjoying authentic local flavours, immersing in cultural heritage, or witnessing internationally recognised events such as this Regatta, visitors will find that extraordinary experiences are always within reach.

I warmly invite everyone to be part of the 36th Raja Muda Selangor International Regatta 2026 and discover why Selangor continues to be a destination where adventure, culture, nature and hospitality come together to create unforgettable memories.

Ancient land, endless turquoise sea, and you.

Step into a land, 550 million years in the making.

Stand before forests and mountains older than memory, and a vast horizon of open sea — all within reach of a single afternoon. Long enough to make you feel wonderfully small.

Nowhere like here.

2025 REPORT

Raja Muda Selangor International Regatta 2025 — Nine Days of Sailing, Strategy and Survival

The 35th Raja Muda Selangor International Regatta, held from 14–22 November 2025, once again provided the mixture of offshore endurance, tactical inshore racing and unpredictable tropical weather that has made the event one of Asia's best-known yacht races. Starting from Port Klang, the fleet travelled north to Pangkor, Penang and finally Langkawi, with 23 boats competing across five racing classes. The fleet ranged from high-performance IRC racers to cruising yachts. The six-boat Racing Class included Hollywood Samurai, skippered by Ray Roberts; The Next Factor, skippered by Rolf Heemskerk; Windsikher, Sarab Jeet Singh; Blitz, Nick Burns; Aftershock, Steve McConaghy; and Malaysian Navy yacht Uranus, skippered by Ahmad Fakrizan bin Deraman. The two-boat Premier Class featured Shatoosh, with Peter Cremers and skipper James Caleem, and Rama Rama VG, skippered by RSYC Commodore Ramasamay Menon.

Class 3, Sports, comprised Jolt, Lee Yi Min; Insanity, Matt Whittingham; and Malabar, Amir Zohri. The six-boat Club Class included James Duke's Kimikimi, Keith Garry's Beaux Espirits, Peter Jong's Kesini, Maduzi with the Raja Muda of Selangor, Tengku Amir Shah, on board, Steve Manning's Black Baza, and Duan Duan, sailed by Dennis Chan and Joon Ming. Class 5, Cruising, featured Dash, Sade, Red G, Marikh, Millennium 2 and Lucky Marlin.

A fast start — and plenty of rain

The opening 82-nautical-mile passage from Port Klang to Fairway Rock near Pangkor began in a northwesterly breeze of around 10–15 knots, settling to about 10 knots later in the race. The fleet proved considerably

faster than predicted, with Aftershock setting a course record for this leg. Hollywood Samurai won Class 1, with Aftershock second and Windsikher third. Shatoosh won Class 2, Jolt Class 3, Kimikimi Class 4 and Dash Class 5. The overnight passage was not entirely benign. Heavy, cold rain affected the fleet, although all boats reached Pangkor safely. The combination of night sailing, fishing boats, nets and changing wind made navigation an important part of the race.

Race. Party, Repeat

Monday's second passage leg, the 65-nautical-mile race from Pangkor to Penang, provided a very different challenge. Race officials initially struggled to find sufficient wind, eventually waiting until a sustained breeze of about six knots appeared. Once underway, **Hollywood Samurai** won Class 1, followed by The Next Factor and Windsikher. Shatoosh again won Class 2, while Jolt, Kesini and Dash took Classes 3, 4 and 5 respectively.

Penang brings close racing

The Penang inshore series produced some of the most concentrated racing of the regatta. The wind was initially reluctant to appear, but PRO Simon James eventually established courses for the fleet.

The Next Factor dominated Class 1, winning both races. Shatoosh also continued its unbeaten run, winning both Premier races. In Sports, Malabar won the first race before Jolt came back to take the second. Beaux Espirits won the first Club race, while Dash won the Cruising race.

The second Penang passage and inshore results left the overall Class 1 contest finely balanced. By the time the fleet reached Langkawi, Hollywood Samurai and The Next Factor were tied on 15 points, with Windsikher only one point behind and Blitz two points further back.

2025 REPORT

Langkawi — rain, strong winds and a dramatic finish

The Langkawi Coastal Race began in cold, drizzling rain so heavy that officials could not initially see the shoreline while setting the marks. Conditions then changed dramatically, with winds gusting over 20 knots.
Blitz won Class 1, beating The Next Factor on corrected time, while Windsikher took line honours. Shatoosh again defeated Rama Rama VG, effectively securing its fifth Jugra Cup. Jolt won Sports, Beaux Espirits won Club and Red G won Cruising.
The final day produced another demanding set of races, with strong winds, rough chop and difficult shifts around the islands. In the Racing Class, The Next Factor finally secured the Raja Muda Cup after another extremely close series. Windsikher also had a particularly eventful conclusion, running aground on the penultimate day before several crew went overboard during the final race. All were safely recovered, and the boat received redress.

For The Next Factor and Rolf Heemskerk, the victory was particularly significant: it was their second consecutive Raja Muda Cup, following their 2024 success. They finished just one point ahead of Ray Roberts' Hollywood Samurai, with Nick Burns' Blitz third.

Beyond the trophies, the 2025 regatta demonstrated why the Raja Muda remains such a demanding event. Crews faced light and shifting winds, strong breezes, heavy tropical rain, night passages, currents, rough water and the ever-present navigational hazards of the Straits of Malacca. The result was nine days in which speed mattered, but preparation, navigation, crew work and tactical judgement mattered just as much.
The 2025 Raja Muda Selangor International Regatta once again proved that reaching Langkawi is only part of the challenge — arriving there with the points and remaining stamina to ace the final harbour races is what's needed to lift a trophy.

2025 RESULTS

MARITIM MALAYSIA

JERRY ROLLIN

On 21st September 2026 we had to bid farewell to a man who anyone who races in South East Asia knew well ; Michael Jeremy "Jerry" Rollin.
Jerry was Principal Race Officer for RMSIR from 2005 to 2017, and one man who knew him better than most of us, as he photographed most of his regattas, was Guy Nowell, who had this to say about his passing...

"It's all in the SIs"

The entire sailing community of South East Asia, and even further afield, is deeply saddened at the death of Jerry Rollin, a man who put many years and huge effort into promoting and developing yacht racing in the Philippines and South East Asia in his capacity as International Race Officer at major regattas.

Jerry arrived in the Philippines in 1987, working for Dunlop, after a spell in the British Army that included a posting to Hong Kong and time in Brunei as a jungle warfare instructor. "In the jungle," he said, "the main thing is to learn to keep absolutely still when there are leeches in your socks and a centipede walking across your face". In spite of a 'wonky' eye, Jerry passed the Army medical by learning the whole sight chart off by heart, and by firing a rifle from the wrong shoulder!

In the late 80s and 90s he crewed on boats out of the Manila Yacht Club, including Andy Soriano's big Swans - Irvmiren and Maligaya - and Ray Ordoveza's Vida, and was later one of the founder members of Saturday Afternoon Gentlemen's Sailing (SAGS) at the Subic Bay Yacht Club after some disagreements with the management of MYC.

In 2000 Jerry inaugurated the Philippine Hobie Challenge, a "raid" event sailed in Hobie 16 beach cats, and consisting of passage races from one gloriously beautiful spot in the Philippines to another. Sometimes these stops were at resorts, but more often they were beach camps a long way from anywhere. The ultimate "off the beaten track" regatta.

Whilst running a business building tennis court, and importing and selling runway and navigation lights, Jerry found time to qualify as an International Race Officer, and quickly became one of Asia's in-demand regatta personnel. It was a given that if Jerry was the RO, then the race management would be efficient, well-organised, and fair. At various times he officiated at the Phuket King's Cup, the Raja Muda Selangor International Regatta, the Brunei International Yachting Challenge, Top of the Gulf Regatta, a Flying Fifteen World Championship in Hong Kong, and the Hong Kong Hobie Championships.

Importantly, Jerry was 'media friendly'. He liked to involve any media personnel on the race course in something 'useful'. In Borneo he succeeded in co-opting the entire media presence at the event: Capt. Marty (asianyachting.com) waved the flags, Chris Howarth (Fragrant Harbour) was the recorder, and Guy Nowell (Sail-World Asia) was given charge of the timing. Jerry supervised, as befits a former Army officer. "Well, since you are here, you may as well do something useful." And when the prizegiving party involved only lukewarm orange squash, Jerry had a bottle of single malt in the bag. "Never get separated from your gear" was another piece of sage military advice

At home in the Philippines, there was the Philippines' Easter Regatta, which morphed into the President's Cup, Commodore's Cup, Chairman's Cup, and eventually the Subic Bay Regatta. For a number of years he organised and kept alive the Boracay Race and Regatta. He organised the Corregidor Cup out of Caylabne Resort where he was a marina consultant, ditto the Punta Fuego Regatta and Busuanga Cup, and he served on the Board of the Corregidor Foundation. In 2019 he was Sailing Competition Manager for the Southeast Asian Games.

Jerry retired from his position as a World Sailing International Race Officer in 2024, but remained as the IRC Measurer for the Philippines, and continued to assist local organisations to raise their standards in race management and technical skills, event logistics and management, handicap systems and safety services. He was Technical Director and a Trustee of the Philippine Sailing Association, and President of both the Philippine Inter-Island Sailing Federation, and the Offshore Racing Club of the Philippines.

Anyone who ever went to one of his Skippers' Briefings got the message - "It's all in the SIs". This was more than a catchphrase: Jerry believed that a perfectly written set of Sailing Instructions obviated any queries. He also believed in adaptability and flexibility at all times: during one RMSIR, and while transferring from one finish boat (inoperative) to another by miniature RIB, in the dark, we (he and I, with a red flashing light on top of my head) were overtaken by the lead boat charging for the finish line some little way off. "Blow a whistle and add 60 seconds to their elapsed time." It worked. There was no complaint from the boat, and no protest.

RIP, Michael Jeremy "Jerry" Rollin

6 March February 1949 - 21 September 2026

Cruising Guide
Facilities along the way

CUSTOMS & CLEARANCE

Clearance

Yachts are only allowed to enter at one of the official ports of entry. Fly the Q flag on arrival. Clear in with Immigration first (crew list and passports, all crew members need to attend) then Marine Department (also called Harbour Master) with arrival report and ship's papers including insurance. It is not necessary to go to Customs on arrival. At some marinas (Sebana Cove, for example) the marina personnel will take the papers to the appropriate offices for you. There are no fees for clearance unless you use an agent.

When clearing out, the Marine Department, Customs and Immigration must be visited and in that order. You need to go to Immigration with your crew and passports even if you are only going to another Malaysian port. Yachts are only allowed to leave Malaysia from official ports of entry, but if you want to sail on to a place which does not have facilities for clearance, permission may be obtained. If clearing out to proceed to Thailand, ensure that crew who are planning to leave your boat there are noted as "passengers". This will avoid them having to place a bond which can be difficult to recover.

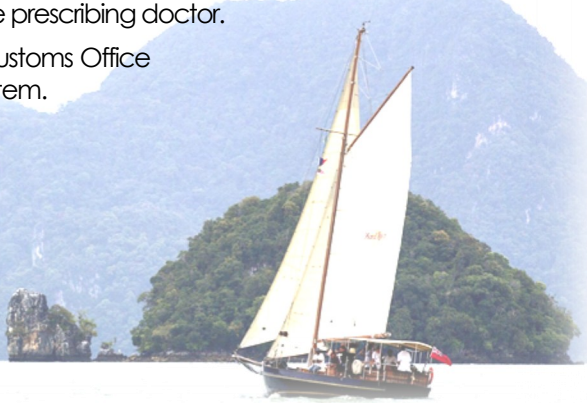

Customs

The Malaysian authorities make it very clear that trafficking in illegal drugs carries the death penalty, and that this applies also to foreign nationals. This death penalty has been carried out.

Firearms must be declared and then sealed by the customs officer. A permit for firearms is required.

All medications or health supplements must be in the original packaging. Visitors requiring an unusual medicine, or requiring the use of scheduled drugs, should carry a letter from the prescribing doctor.

It is advisable to check with the Customs Office upon arrival if in doubt about any item.

All charts reproduced herein are for guidance only and are NOT to be used for navigation. Lat/Long coordinates are given in good faith as guidance only and the regatta organisers are in no way liable for any direct or consequential loss or damage however caused.

PORT KLANG

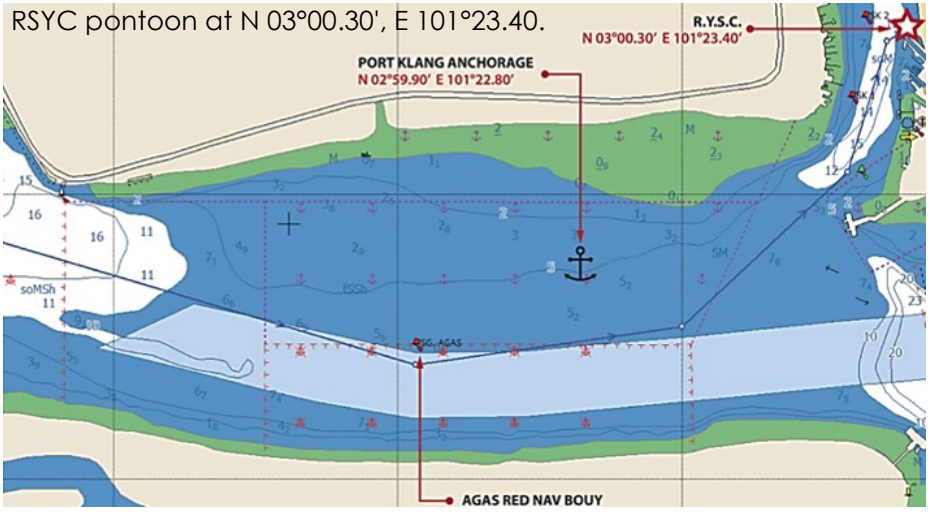

Berthing

Berths are available at RSYC for boats below 20 metres LOA, that prebook with RSYC, giving their estimated arrival date and time. Please note that some berths do not have electrical power nor water supply. Berthing at RSYC is free for participating yachts for 7 days prior to the first race. Boats over 20 metres may need to anchor at the indicated area and use the water taxi. Call "RSYC" on VHF72 when at Agas Buoy.

Approaches

Boats coming from the south: Enter via Westport channel to TAIL BUOY. From the North, enter via Pulau Angsa & Northport to TAIL BUOY. Call RSYC on VHF 72 after passing AGAS red nav buoy, as there are busy times when you may need to stand off near the ferry jetty until berths are ready. Try to arrive in the 2 hours before high water or at low water so as to avoid strong river and tidal currents.

PORT KLANG

Location of Services

Refer to the Information sheets, with maps, available at RSYC reception and online at www.rmsir.com.

Immigration (24hrs), Port Authority and Customs are all located locally.

During Regatta, transport from RSYC will be available at certain times.
Note that ALL crew must attend the immigration clearance (no shorts!).

Pantai Pasir Bogak, Pangkor
MALAYSIA

Sea, Sand & Everlasting Serenity.

Just five minutes away from Pangkor Jetty, Puteri Bayu Beach Resort enjoys an idyllic location on the Northwest coast of the island, notably on the popular shores of Pasir Bogak beach. Surrounded by luxuriant greenery, washed by the warm waters of theStraits of Malacca, the resort lies sheltered from the waves and the wind. The refreshing green landscape and the long stretch of sandy beach that hugs the resort create a natural infusion and a truly exceptional location.

RMSIR36

PANGKOR

Berthing

Boats can either anchor off Puteri Bayu or berth at Marina Island Pangkor Marina (**MIPM**)- see charts.

Berthing at MIPM is only suitable for boats of less than 2-metre draft due to very shallow and changeable approaches.

Boats at anchor should call 'Regatta Control' on VHF 69 to call for the water taxi to take them ashore.

The **Puteri Bayu** anchorage is at N 04°12.58', E 100°33.10'.

Boats heading for **MIPM** should use the following waypoints:

Turn point: N 04°12.73', E 100°35.04

Marina Entrance: N 04°12.70', E 100°36.00.

MIPM berths are chargeable and only a very limited number available.

Boats heading to MIPM should call them on VHF 69 upon approach.

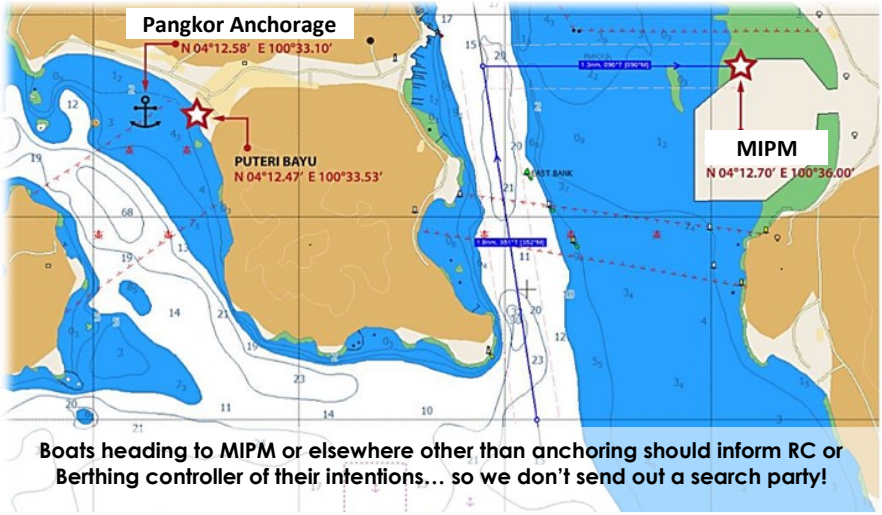

Approaches & Navigation Notes — Refer to the charts;

Ships supplies -There are limited supplies on Pangkor Island and MIPM.

Chandlery - MIPM can assist with some services, but otherwise limited.

Fuel - None readily available but can be obtained in cans via MIPM.

Ice - will be available from Puteri Bayu for those that order it **before** 18:00 day before the next race.

Boats heading to MIPM or elsewhere other than anchoring should inform RC or Berthing controller of their intentions… so we don't send out a search party!

EVENT VENUE

Main Lobby
Our light-filled lobby is the centerpiece of the mall, offering a stunning backdrop for product launches, fashion shows, art exhibitions and festival fairs. With its British colonial design and layout, the lobby provides endless possibilities for creative event design.

Straits Court & Market Street
Straits Court and Market Street is a dynamic outdoor space that can be transformed to accommodate concerts, food festivals, community events, pop-up market and various competitions venue. Surrounded by shops and restaurants, both offer convenience and accessibility for all the attendees.

The Promenade
Enjoy alfresco dining and live entertainment at The Promenade, a vibrant outdoor venue overlooking the marina. With its lush landscaping and floating stage, The Promenade is perfect for concerts, food festivals, and community events.

THE MARINA

An intimate pleasure marina designed to be a meeting place for sailing enthusiasts to berth and swap sea stories as well as for visitors and residents to hop on board cruises or just enjoy soft sea breeze.

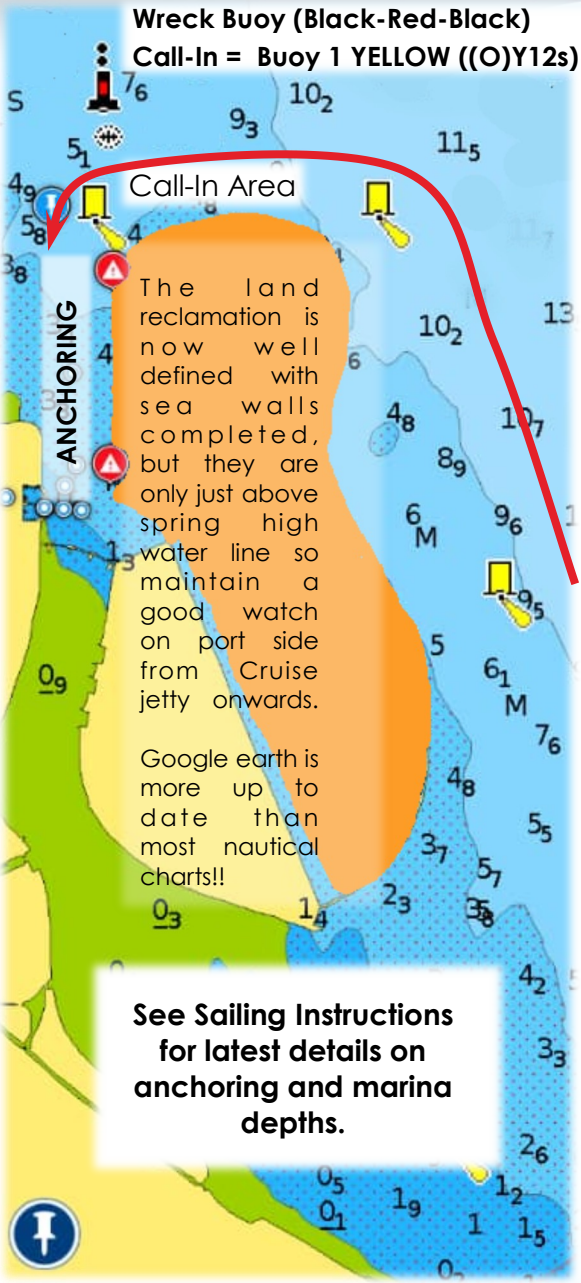

Straits Quay Marina has 40 pontoon berths that can accommodate boats from 10m to 25m in length, with the approach channel and marina basin dredged to three meters below chart datum. All berths have potable water and 240V 32/63A electricity supplied via pedestals.

A Boater's Centre is located within the Marina Management Office with information office, Wi-Fi access and shower rooms. Prior booking of berths is highly recommended and they will only be allocated subject to availability. The berthing terms have been revised on 1st May 2019.

LANGKAWI

Berthing

With limited space at RLYClub, berths will be allocated upon radio contact, after a boat has crossed the finish line.

Approaches & Navigation Notes

Boats should enter RLYC from the SOUTH entrance after contacting the RLYC on VHF 69 when in sight of the yacht club entrance, so as to be allocated a berth.

Each boat will be allocated a number that will allow crew access to the marina gate.

Customs & Immigration

Immigration Office 08:00-19:00 (closed Friday & Saturday)

Custom Office 08:00-17:00 (closed Friday & Saturday)

Marine Office 08:00-17:30 (open daily)

Ships supplies - there are many duty-free supermarkets in Kuah Town.

Ice - will be available from the bar by prior (previous day) booking.

Fuel - RLYC does not have any fuel dock but there is a fuel barge in Kuah harbour, +60194498997 (Mr Tan) -call/whatsapp. bunkersupplylangkawi@gmail.com

RLYC can assist with this and any other technical matters.

Malaysia's only award-winning marina.

The marina is located in Kuah, the island's town centre, providing excellent access to duty-free shops, banks, post office, hardware stores. restaurants & bars and other business facilities on the island.
We can accommodate mega-yachts up to 80 meters. Pontoons have direct electricity and water supply with full Wi-Fi coverage across the marina. We offer maintenance and repair services within the marina, with shipyards and bunkers located nearby. CQIP offices are conveniently accessible within a 5-minute walk from the marina. We also offer laundry service, showers, pool, spa, gym, karaoke, and exclusive discounts for berth holders at our restaurants and bars.
